## Treasurers' Sales of Lands for Taxes

Each year, municipal and county treasurers compile a list of properties against which taxes are outstanding for at least two successive years, which is a period sufficient to permit sale of the owner's assets to reimburse the municipality. These lists are submitted by the municipal representative to the Ministry of Government Services for publication in THE ONTARIO GAZETTE.

The Gazette is published every Saturday. Tax sale lands are included only in the issue of the first Saturday of each month. Each property is described so that it may be properly identified. Also shown are the amount of tax arrears and costs, and the date, time and place where the sale will be held, which is usually in a public building in the locality. Sales are held three months or later following the date of publication in the Gazette and are subject to a reserve bid equal to the amount of tax arrears and costs.

The previous owner may by law redeem the property any time within one year and one day after the date of tax sale by paying to the municipality all arrears plus costs levied. Where redemption occurs, the municipality reimburses the purchaser of tax sale lands for the amount paid at the sale plus an additional amount to be determined in each case.

If the land is not redeemed in the manner described above, the purchaser at sale, receives from the municipality a tax deed or certificate which should be registered in the appropriate Land Titles or Registry Office. A purchaser should ascertain from either of these offices, information relating to any of the charges or liens against the land and consider the advisability of employing the services of a solicitor to determine the extent, if any, of his liability.

The foregoing applies to tax sale lands which were privately owned. In the event the land is the property of the Crown as represented by the Province of Ontario, only the improvements on the property, such as buildings, may be sold. In this case, an intending purchaser should for his own protection ascertain from the local office of the Ministry of Natural Resources whether or not the land or any part can be purchased or leased from the Ministry. If it cannot, then the purchaser of the improvements would be required to remove them from the land.

In some cases, land advertised for sale in the Gazette may be bought by the municipality, or the owner, prior to sale, may pay the tax arrears and costs. Where this occurs, the land is removed from the tax sale lists.

- (c) The Learned Panel erred in confirming the authorities held in the name of the Reviewee in that such confirmation amounted to the condonation of the leasing of the assets of the Reviewee and which was and is contrary to public policy in that no reasonable protection was afforded to the creditors of the Reviewee and that the position of the creditors of the Reviewee was not enhanced by such conduct.

(d) The Learned Panel erred in law in not properly making the distinction between the operations that were permitted to be conducted by the Reviewee under the terms of *The Public Commercial Vehicles Act*, R.S.O. 1970, Chapter 375, as amended, and the *Motor Vehicle Transport Act*, R.S.C. 1970, Chapter M-14, and the operations that were allegedly performed by the principles of the Reviewee.

1. An Act respecting the Village of Exeter, Statutes of Ontario, 1899, Chapter 47 is repealed.
2. Village of Exeter By-Law No. 8, 1899, Being a By-Law to provide a fixed general mill rate for farmland in blocks of not less than 20 acres is repealed.

In 1899, the Municipal Council of the Corporation of the Village of Exeter set a fixed rate of three and one-half mills on the general mill rate, together with rates for debenture debt, school and county purposes. The relief was granted to owners of farmland in blocks in excess of twenty (20) acres for such services as electric lighting, fire protection, sidewalks, etc. Assessment and mill rates have changed over the years. Some properties assessed as farmland have residences attached, enjoying

these services that exemption was granted for. Council of the Corporation of the Town of Exeter deem this fixed rate for farmland no longer equitable or fair.

By applying to the Provincial Legislature for the Act and By-Law to be repealed will cause the owners of the said parcels of farmland to be subject to the full general municipal mill rate (including debenture debt), as well as the rates for school and county purposes.

## Ministry of Labour

NOTICE OF INTENT TO REGULATE  
ISOCYANATES, MERCURY, NOISE,  
VINYL CHLORIDE MONOMER, AND  
OCCUPATIONAL HEALTH HAZARDS

The Ministry of Labour intends to regulate general occupational health hazards and the exposures of employees to the substances: isocyanates, mercury, noise and vinyl chloride monomer. Interim drafts of these regulations are set out below. Comments are invited. These comments will be reviewed, together with those from external scientific experts and other Provincial Ministries. If any concerns remain to be addressed, further consultations will take place. The proposed regulations will be subsequently published in THE ONTARIO GAZETTE.

An impact study on the economic effects of regulating hazards to occupational health and isocyanates, mercury, noise and vinyl chloride monomer, is being developed. Any comments on this subject should be included separately from your comments on the interim draft regulations.

The following questions could be considered in preparing your comments:

### *Regulations Respecting Occupational Health Hazards*

1. Will the scheme of progressive control measures described in section 4 adequately control, limit, or reduce an exposure?
2. Are the medical examination program, the personal exposure record program, and the health record program sufficiently comprehensive?
3. Do you agree with the process described in section 7 to establish a monitoring program?

### *Regulations Respecting Hazardous Substances*

4. Do you agree with the exposure limits for the substance?
5. Do you agree with the respiratory equipment requirements?
6. Do you agree with the requirements for cleanliness in the workplace?
7. Do you agree that the warning notice to be posted is adequate?
8. Do you agree with the medical examination requirements?

Comments should be submitted within 60 days of the date of the publication of this notice to:

DR. C. R. MAY,  
Assistant Deputy Minister,  
Occupational Health and Safety Division,

REGULATION RESPECTING OCCUPATIONAL  
HEALTH HAZARDS

1.—(1) In this regulation and a regulation respecting a regulated substance,

- (a) "administrative controls" mean controlling, limiting or reducing the period of time of exposure to a regulated or a toxic substance or a physical agent;
- (b) "ceiling exposure limit" means the maximum exposure to an airborne concentration of a regulated or a toxic substance or a physical agent that is not to be exceeded for an instant;
- (c) "engineering controls" mean controlling, limiting or reducing the exposure to a regulated or a toxic substance or a physical agent by ventilation, isolation, enclosure and design of the work place, plant and equipment or one or more of such means;
- (d) "physical agent" means heat, humidity, light, noise, laser, microwave energy, ultraviolet or ionizing radiation, exposure to which is limited or proscribed under a regulation, or a limit for exposure thereto is adopted as a criteria or guide under this regulation;
- (e) "regulated substance" means a toxic substance the exposure to which is limited or proscribed under a regulation;
- (f) "short-term exposure limit" means the maximum exposure to an airborne concentration of a regulated or a toxic substance or a physical agent in a period not exceeding fifteen minutes provided that such maximum exposure does not occur more than four times in a day at intervals of not less than sixty minutes and further provided that the time-weighted average exposure limit is not exceeded;
- (g) "time-weighted average exposure limit" means the maximum average exposure in a 40 hour work week to an airborne concentration of a regulated or a toxic substance or a physical agent determined as prescribed by section 2;
- (h) "toxic substance" means a biological or chemical substance, a mixture or combination of such substances in respect of which a limit for exposure thereto is adopted as a criteria or guide under this regulation;
- (i) "work practices" mean controlling, limiting, or reducing exposure to a regulated or a toxic substance or a physical agent by,

(i) providing,

- 1. double locker rooms and showers;
- 2. for the laundering and cleaning of work clothing;
- 3. separate eating facilities;
- 4. washing facilities;

(ii) maintaining proper housekeeping procedures,

(iii) training workers in the handling, use and disposal of a regulated or a toxic substance, and

(iv) taking proper measures and procedures to control, limit or reduce such exposure.

(2) In a regulation made under the Act, the term,

(a) milligrams per cubic metre of air;

(b) micrograms per cubic metre of air;

(c) parts per million by volume in air;

(d) parts per billion by volume in air; and

(e) fibres per cubic centimetre of air

may be expressed respectively as,

(a)  $\text{mg/m}^3$ ;

(b)  $\text{ug/m}^3$ ;

(c) ppm;

(d) ppb; and

(e) fibres/cc.

2.—(1) In determining the time-weighted average concentration of a regulated or toxic substance in the air in a work place and the exposure thereto,

(a) the results of the analysis of individual samples of air taken during work operations calculated in  $\text{mg/m}^3$ , ppm, ppb and fibres/cc shall be multiplied by the time in hours per day or work shift during which it is estimated that exposure to the concentration of the regulated or toxic substance obtained in the samples has occurred in the work operations;

(b) the sum of the products obtained under clause (a) shall be multiplied by the number of days worked by the worker in a work week; and

(c) the result obtained under clause (b) shall be divided by 40.

(2) Where the length of exposure exceeds or is less than the length of exposure in a normal 8 hour work day and a 40 hour work week, the calculations made pursuant to subsection 1 shall be adjusted so that the result obtained will be representative of an exposure for a normal 8 hour work day and a 40 hour work week.

3. Subject to a regulation made in respect of a regulated substance, the time-weighted average exposure limits, the short-term exposure limits and the ceiling exposure limits for exposures to airborne concentrations of a biological or chemical substance or a physical agent or a mixture or combination of biological or chemical substances, set out in the booklet entitled *Threshold Limit Values for Chemical Substances and Physical Agents in the Workroom Environment with Intended Changes for 1977* published by the American Conference of Governmental Industrial Hygienists are adopted as criteria or guides.

4.—(1) Where exposure to a concentration in air of a regulated or a toxic substance or a physical agent in excess of,

(a) a ceiling exposure limit;

(b) a short-term exposure limit; or

5. Where a regulation or order made under the Act contains any of the forms of words relating to work practices contained in Column One indicated by a letter, the regulation shall have the same effect as if it contained the form of words in Column Two set opposite thereto and indicated by the same letter:

*Column One*

(a) Double locker rooms and shower facilities shall be provided.

(b) Clean work clothes shall be provided and used.

(c) a time-weighted average exposure limit,

occurs as prescribed by a regulation or in a criteria or guide adopted by this regulation, the excess shall be eliminated, controlled, limited or reduced to an exposure below such limit by the adoption, application, installation and institution, in progressive stages of,

(d) engineering controls;

(e) work practices; and

(f) administrative controls.

(2) Where the measures and procedures prescribed by subsection 1,

(a) do not eliminate, control, limit or reduce exposures below the limits prescribed or adopted;

(b) are not immediately practicable; or

(c) cannot be promptly adopted, applied, installed and instituted,

suitable respiratory equipment or other personal protective equipment or devices shall be provided and used for such period or periods as a Director may permit from time to time.

*Column Two*

(a) Double locker rooms and shower facilities shall be provided, designed so that the shower facilities are between the two locker rooms and so arranged that

(iii) street clothes must put on in the other locker room.

(b) (i) Freshly laundered work clothes shall be provided and used at not greater than 5 day intervals,

(ii) contaminated work clothes shall be placed in closed containers for storage until laundered or discarded,

(iii) contaminated work clothes shall be,

1. laundered at the work place in a laundry where the laundry workers are protected from exposure to the contaminant; or

*Column One**Column Two*

- (c) Facilities shall be provided for vacuuming work clothes and shall be used.
  - (d) A work place shall be cleaned only by vacuuming or the use of sweeping compounds.
  - (e) Eating, drinking and smoking shall be prohibited.
  - (f) Washing facilities shall be provided.

## THE CORPORATION OF THE TOWN OF EXETER

NOTICE IS HEREBY GIVEN that the Corporation of the Town of Exeter intends to apply to the Legislative Assembly of the Province of Ontario for Special Legislation to provide that:

1. An Act respecting the Village of Exeter, Statutes of Ontario, 1899, Chapter 47 is repealed.

2. Village of Exeter By-Law No. 8, 1899, Being a By-Law to provide a fixed general mill rate for farmland in blocks of not less than 20 acres is repealed.

In 1899, the Municipal Council of the Corporation of the Village of Exeter set a fixed rate of three and one-half mills on the general mill rate, together with rates for debenture debt, school and county purposes. The relief was granted to owners of farmland in blocks in excess of twenty (20) acres for such services as electric lighting, fire protection, sidewalks, etc. Assessment and mill rates have changed over the years. Some properties assessed as farmland have residences attached, enjoying

these services that exemption was granted for. Council of the Corporation of the Town of Exeter deem this fixed rate for farmland no longer equitable or fair.

By applying to the Provincial Legislature for the Act and By-Law to be repealed will cause the owners of the said parcels of farmland to be subject to the full general municipal mill rate (including debenture debt), as well as the rates for school and county purposes.

Dated at Exeter, this 25th day of July, 1978.

## The Environmental Assessment Act, 1975

MGS-16

### THE ENVIRONMENTAL ASSESSMENT ACT, 1975

#### Exemption Section 30

Having received a request from the Minister of Government Services that an undertaking namely:

The activity of constructing the Kingston Regional Testing Laboratory at the Ministry of Transportation and Communications District Office site located at 355 Counter Street in the City of Kingston,

be exempted from the application of the Act pursuant to Section 30; and

Having been advised that if the undertaking is subject to the application of the Act, the following injury, damage or interference with the persons indicated will occur:

1. The Crown will be interfered with and damaged by any delays, including those which might arise from a requirement to prepare an environmental assessment for an undertaking that is required by the Ministry of Transportation and Communications to correct the inefficiencies in the testing program caused by a lack of adequate space at the existing laboratory; and
2. The public will be interfered with in that the levels of efficiency and services available from the testing programs of the laboratory are diminished by the inadequacies of the existing facilities.

Having weighed such injury, damage or interference with the betterment of the people of the whole or any part of Ontario by the protection, conservation and wise management in Ontario of the environment which would result from the undertaking being subject to the application of the Act;

I am of the opinion that it is in the public interest to order and do order subject to the terms and conditions set out below that the undertaking is exempt from the application of the Act for the following reasons:

1. The undertaking is needed to overcome present inadequate facilities and to further centralize the services of the Regional Office in one easily accessible location;
2. The proposed project is unlikely to have any adverse environmental effects in that sufficient space exists at the site for its development and the architectural treatment of the structure will be in keeping with the rest of the facility; and
3. The Minister of Government Services has informed me that adequate municipal services are available for the development of the project and that the proposed development is in keeping with the zoning and with the land use in and adjacent to the site.

This exemption order is subject to the following terms and conditions:

1. That the tenders for construction of the facility be awarded no later than December 31, 1982;
2. That the Ministry of Government Services notify the Environmental Approvals Branch, Ministry of the Environment, between 30 and 100 days prior to the

Ministry of Government Services applying to Management Board of Cabinet for approval of construction of the project, advising that the Ministry of Government Services has reviewed the project and is of the opinion that the current conditions under which the project is proposed are unchanged from conditions that existed on the date that this exemption order was issued.

The order comes into force and has effect on and after the date upon which it is signed.

Dated at Toronto, this 27th day of July, 1978.

Minister of the Environment.

## THE ENVIRONMENTAL ASSESSMENT ACT, 1975

### Exemption Section 30

Having received a request from the Minister of Government Services that an undertaking namely:

The activity of the construction by the Ministry of Government Services of the accommodations projects listed in Schedule "A",

be exempted from the application of the Act pursuant to Section 30; and

Having been advised that if the undertaking is subject to the application of the Act, the following injury, damage or interference with the persons indicated will occur:

1. The Crown will be interfered with and damaged by any delays, including those which might arise from a requirement to prepare an Environmental Assessment for projects that are required by the various client ministries of the Ministry of Government Services to correct certain inefficiencies in the support facilities and to alleviate the overcrowded conditions at the site of the various existing institutions; and
2. The public will be interfered with in that the levels of efficiency and services available from the programs of the various client ministries are diminished by the inadequacies of the existing facilities at the various institutions.

Having weighed such injury, damage, or interference with the betterment of the people of the whole or any part of Ontario by the protection, conservation and wise management in Ontario of the environment which would result from the undertaking being subject to the application of the Act;

I am of the opinion that it is in the public interest to order and do order subject to the terms and conditions set out below that the undertaking is exempt from the application of the Act for the following reasons:

1. The undertaking, which consists of a number of renovation programs at existing institutions, is required to alleviate present overcrowded conditions and to correct inadequacies in support facilities in order to allow the client ministries of the Ministry of Government Services to execute their program delivery responsibilities in a safe and efficient manner;
2. The undertaking will not increase the capacity of the institutions. The projects involve only routine operation changes merely serving to update the existing facilities to present standards. All work will be executed within the confines of the site of the existing institutions; and
3. Services existing at the sites are adequate to handle the proposed projects.

This exemption is subject to the following terms and conditions:

1. That tenders for construction of the various projects be awarded no later than December 31, 1982; and
2. That the Ministry of Government Services notify the Environmental Approvals Branch, Ministry of the Environment between 30 and 100 days prior to the Ministry of Government Services applying to Management Board of Cabinet for approval of construction of each of the projects, advising that the Ministry of Government Services has reviewed each of the projects and is of the opinion that the current conditions under which the projects are proposed are unchanged from the conditions that existed on the date that this exemption order was issued.

This order comes into force and has effect on and after the date upon which it is signed.

Dated at Toronto, this 31st day of July, 1978.

Minister of the Environment.

## THE ENVIRONMENTAL ASSESSMENT ACT, 1975

### Exemption Section 30

Having received a request from the Minister of Government Services that the undertakings namely:

The construction of a courthouse on a 9.9 acre site at 5000 Yonge Street in the Borough of North York, and

The construction of a courthouse on a 9 acre site located at the northeast corner of the junction of Ellesmere Avenue and McCowan Road in the Borough of Scarborough, adjacent to the existing municipal and commercial complex known as the Scarborough Town Centre,

be exempted from the application of the Act pursuant to Section 30; and

Having been advised that if the undertakings are subject to the application of the Act, the following injury, damage or interference with the persons indicated will occur:

The Crown and the public will be interfered with and damaged by any delays, including

those which might arise from a requirement to prepare Environmental Assessments for undertakings which are needed by the Ministry of the Attorney General to assist in reducing the backlog of work presently before the courts.

Having weighed such injury, damage, or interference with the betterment of the people of the whole or any part of Ontario by the protection, conservation and wise management in Ontario of the environment which would result from the undertakings being subject to the application of the Act;

I am of the opinion that it is in the public interest to order and do order subject to the terms and conditions set out below that the undertaking is exempt from the application of the Act for the following reasons:

1. The undertakings were originally exempt from the application of the Act by exemption orders MGS-9 and MGS-10. It was a condition of these orders that tenders for construction be awarded no later than March 31, 1978. A review of the accommodations program requirements of the Ministry of the Attorney General, which confirmed the pressing need for these undertakings, delayed program delivery beyond the point at which the conditions of the original exemption orders could be met;
2. The undertakings are part of the decentralization of Metropolitan Toronto Crown Attorney's Office approved by Cabinet on April 7, 1976, and are part of the decentralization of Provincial Courts in Metropolitan Toronto approved in principle by the Management Board of Cabinet on May 11, 1976;
3. Approval for purchase of the sites described above was granted by Management Board of Cabinet prior to the effective date of *The Environmental Assessment Act* with respect to undertakings of the Ministry of Government Services, and the sites are presently owned by the Crown; and
4. The areas in which the courthouses will be located are in districts being developed for commercial and institutional purposes so that in both cases the proposed use will be compatible with its surroundings.

This exemption is subject to the following terms and conditions:

1. That tenders for construction of the two courthouses be awarded no later than December 31, 1982; and
2. That the Ministry of Government Services notify the Environmental Approvals Branch, Ministry of the Environment, between 30 and 100 days prior to the Ministry of Government Services applying to Management Board of Cabinet for

approval of construction of each of the two courthouses, advising that the Ministry of Government Services has reviewed each of the undertakings and is of the opinion that the current conditions under which the projects are proposed are unchanged from conditions that existed on the date that this exemption order was issued;

3. That, in the case of the Scarborough courthouse, the Borough of Scarborough's by-law to rezone the site from industrial to "town centre" be approved by the Ontario Municipal Board prior to any construction activities being initiated.

This order comes into force and has effect on and after the date upon which it is signed.

Dated at Toronto, this 31st day of July, 1978.

Minister of the Environment.

### Exemption Section 30

Having received a request from the Minister of Government Services that an undertaking namely:

The activity of reconstructing the Minden District Office for the Minister of Natural Resources,

be exempted from the application of the Act pursuant to Section 30; and

Having been advised that if the undertaking is subject to the application of the Act, the following injury, damage or interference with the persons indicated will occur:

1. The Crown will be interfered with and damaged by any undue delays or costs including those that might arise from a requirement to prepare an Environmental Assessment for an undertaking that is needed by the Ministry of Natural Resources to carry out the consolidation of the Gooderham and Haliburton offices of the Ministry of Natural Resources into the Minden office.
2. The public will be interfered with and damaged because the level of service available and the efficiency in which it is effected is diminished by the inadequacies of the existing facilities.

Having weighed such injury, damage, or interference with the betterment of the people of the whole or any part of Ontario by the protection, conservation and wise management in Ontario of the environment which would result from the

undertaking being subject to the application of the Act;

I am of the opinion that it is in the public interest to order and do order subject to the terms and conditions set out below that the undertaking is exempt from the application of the Act for the following reasons:

1. The proposed project replaces facilities which are inadequate in terms of modern standards and are unable to accommodate the consolidation;
2. The proposed project only marginally increases the size of the presently existing operation which has been in this same location without incident for the last 30 years. Zoning of the area, including that of the additional one acre acquired, is compatible with the existing developments in the area, and therefore the project will create no new significant adverse environmental effects; and
3. The Minister of Government Services has advised me that the existing sewage and water facilities at the site are adequate to accommodate the proposed development. It is also anticipated that municipal services will be available in time for the construction of the proposed facility and a decision as to which servicing option will be used will be made at the time of construction.

This exemption is subject to the following terms and conditions:

1. That tenders for construction of the project be awarded no later than December 31, 1982; and
2. That the Ministry of Government Services notify the Environmental Approvals Branch, Ministry of the Environment, between 30 and 100 days prior to the Ministry of Government Services applying to Management Board of Cabinet for approval of construction of the project advising that the Ministry of Government Services has reviewed the undertaking and is of the opinion that the current conditions under which the project is proposed are unchanged from conditions on the date that this exemption order was issued.

This order comes into force and has effect on and after the date upon which it is signed.

Dated at Toronto, this 31st day of July, 1978.

GEORGE R. MCCAGUE,  
Minister of the Environment.

1. An Act respecting the Village of Exeter, Statutes of Ontario, 1899, Chapter 47 is repealed.

2. Village of Exeter By-Law No. 8, 1899, Being a By-Law to provide a fixed general mill rate for farmland in blocks of not less than 20 acres is repealed.

In 1899, the Municipal Council of the Corporation of the Village of Exeter set a fixed rate of three and one-half mills on the general mill rate, together with rates for debenture debt, school and county purposes. The relief was granted to owners of farmland in blocks in excess of twenty (20) acres for such services as electric lighting, fire protection, sidewalks, etc. Assessment and mill rates have changed over the years. Some properties assessed as farmland have residences attached, enjoying

these services that exemption was granted for. Council of the Corporation of the Town of Exeter deem this fixed rate for farmland no longer equitable or fair.

By applying to the Provincial Legislature for the Act and By-Law to be repealed will cause the owners of the said parcels of farmland to be subject to the full general municipal mill rate (including debenture debt), as well as the rates for school and county purposes.

### IN THE COUNTY COURT OF THE COUNTY OF KENT

IN THE MATTER OF *The Municipal Act*, R.S.O. 1970, c. 284, Section 354(1) 97 as amended, and Section 363(9); and

IN THE MATTER OF the application of The Corporation of the Town of Wallaceburg for an Order approving By-law 77-47 of the Town of Wallaceburg which by-law provides for changing the name of the Easterly portion of Wallace Street to "Wallace Street East", for naming the River Road "Wallace Street East" and for numbering Wallace Street East easterly from Prince Street.

### NOTICE OF MOTION

TAKE NOTICE that The Corporation of the Town of Wallaceburg intends to apply to the Judge of The County Court of the County of Kent, in Chambers, 21 7th Street in the City of Chatham,

on Thursday, the 28th day of September, 1978, at the hour of 10.00 o'clock in the forenoon, or so soon thereafter as the matter may be heard, for an Order approving By-law 77-47 of the Town of Wallaceburg which by-law provides for:

- (a) Changing the name of Wallace Street Easterly from Prince Street to "Wallace Street East".
- (b) Naming the River Road from the present Easterly limit of Wallace Street to the corporate limit of the municipality "Wallace Street East".
- (c) Numbering Wallace Street East as re-named, easterly from Prince Street.

The proposed by-law has been deemed necessary since, if the River Road as acquired by annexation, was to be named "Wallace Street" it would necessitate renumbering Wallace Street throughout its length, westerly from the easterly limit of the Corporation, with a substantial amount of confusion and inconvenience to the owners of property abutting the street, whereas renaming and re-numbering the street easterly from Prince Street will reduce such inconvenience to a minimum.

AND TAKE FURTHER NOTICE that, at the same time and place, the Judge will hear those persons advocating and opposing the provisions of the said by-law.

Dated this 10th day of August, 1978.

THE TOWN OF WALLACEBURG:

Clerk.

IN THE MATTER OF *The Public Commercial Vehicles Act*, R.S.O. 1970, Chapter 375, as amended; and

IN THE MATTER OF *The Ontario Highway Transport Board Act*, R.S.O. 1970, Chapter 316, as amended; and

IN THE MATTER OF the Review of Philip Chapman Cartage Limited, which was heard by the Ontario Highway Transport Board at its Chambers in Toronto on April 12, 1978; and

IN THE MATTER OF the Ontario Highway Transport Board's Order dated June 5, 1978.

#### NOTICE OF MOTION

TAKE NOTICE that an application will be made on behalf of Canada Cartage System Limited, W. J. Mowat Limited and J. D. Smith and Sons Limited before the Ontario Highway Transport Board at its Chambers in Britannica House, 151 Bloor Street West, 10th Floor, Toronto, Ontario, on such day and at such time as the Board may direct for an Order (1) revoking the decision of the Board dated June 5, 1978 and (2) directing that the matter be reheard in its entirety before a Panel of the Board not previously seized of this matter on the following grounds:

1. The presiding Member erred in law in that there was no evidence of a transportation service provided by the Reviewee pursuant to its licence. Accordingly, there was no evidence before the presiding Member on which he could base a decision that the licence was not dormant.
2. The presiding Member erred in law in considering a licence as separate from the holder of the licence and the business carried on by the holder of the licence in accordance with the licence.
3. The decision of the presiding Member was against the evidence and the weight of the evidence in the following respects:
  - (a) the activities of the Receiver were not activities carried on by the Reviewee, its officers or directors, pursuant to the operating licence; and

(b) the activities of P & D Leasing were not activities carried on by the Reviewee pursuant to its licence but were activities carried on by a separate entity.

4. The decision of the presiding Member is not in the public interest in the following respect:

- (a) it condones the activities of the principals of the Reviewee in using assets of the company at a time when they had no authority to do so because of the appointment of the Receiver;
- (b) it condones the using of the assets of a holder of a public commercial vehicle licence in a manner which does not protect or enhance the position of the creditors of that holder of a public commercial vehicle licence;
- (c) it is contrary to previous decisions of the Ontario Highway Transport Board holding that:
  - i. the leasing of an operating licence,
  - ii. the allowing of bills of lading to be issued by parties other than a holder of a licence, and
  - iii. the knowingly permitting an operation under an operating licence over which the licensee has no control,

are grounds to warrant the cancellation of a licence;

(d) it is contrary to the intent and spirit of *The Public Commercial Vehicles Act* and to principles of sound licensing policy.

AND TAKE NOTICE that in support of the Motion, the Notice of Review will be read and the proceedings and exhibits filed herein and such further and other material as counsel may advise and the Board permit will be referred to or read.

Dated at Toronto, this 28th day of June, 1978.

## THE CORPORATION OF THE TOWN OF EXETER

NOTICE IS HEREBY GIVEN that the Corporation of the Town of Exeter intends to apply to the Legislative Assembly of the Province of Ontario for Special Legislation to provide that:

1. An Act respecting the Village of Exeter, Statutes of Ontario, 1899, Chapter 47 is repealed.
2. Village of Exeter By-Law No. 8, 1899, Being a By-Law to provide a fixed general mill rate for farmland in blocks of not less than 20 acres is repealed.

In 1899, the Municipal Council of the Corporation of the Village of Exeter set a fixed rate of three and one-half mills on the general mill rate, together with rates for debenture debt, school and county purposes. The relief was granted to owners of farmland in blocks in excess of twenty (20) acres for such services as electric lighting, fire protection, sidewalks, etc. Assessment and mill rates have changed over the years. Some properties assessed as farmland have residences attached, enjoying

these services that exemption was granted for. Council of the Corporation of the Town of Exeter deem this fixed rate for farmland no longer equitable or fair.

By applying to the Provincial Legislature for the Act and By-Law to be repealed will cause the owners of the said parcels of farmland to be subject to the full general municipal mill rate (including debenture debt), as well as the rates for school and county purposes.

**Treasurers' Sales of Lands for Taxes**

Each year, municipal and county treasurers compile a list of properties against which taxes are outstanding for at least two successive years, which is a period sufficient to permit sale of the owner's assets to reimburse the municipality. These lists are submitted by the municipal representative to the Ministry of Government Services for publication in THE ONTARIO GAZETTE.

The Gazette is published every Saturday. Tax sale lands are included only in the issue of the first Saturday of each month. Each property is described so that it may be properly identified. Also shown are the amount of tax arrears and costs, and the date, time and place where the sale will be held, which is usually in a public building in the locality. Sales are held three months or later following the date of publication in the Gazette and are subject to a reserve bid equal to the amount of tax arrears and costs.

The previous owner may by law redeem the property any time within one year and one day after the date of tax sale by paying to the municipality all arrears plus costs levied. Where redemption occurs, the municipality reimburses the purchaser of tax sale lands for the amount paid at the sale plus an additional amount to be determined in each case.

If the land is not redeemed in the manner described above, the purchaser at sale, receives from the municipality a tax deed or certificate which should be registered in the appropriate Land Titles or Registry Office. A purchaser should ascertain from either of these offices, information relating to any of the charges or liens against the land and consider the advisability of employing the services of a solicitor to determine the extent, if any, of his liability.

The foregoing applies to tax sale lands which were privately owned. In the event the land is the property of the Crown as represented by the Province of Ontario, only the improvements on the property, such as buildings, may be sold. In this case, an intending purchaser should for his own protection ascertain from the local office of the Ministry of Natural Resources whether or not the land or any part can be purchased or leased from the Ministry. If it cannot, then the purchaser of the improvements would be required to remove them from the land.

In some cases, land advertised for sale in the Gazette may be bought by the municipality, or the owner, prior to sale, may pay the tax arrears and costs. Where this occurs, the land is removed from the tax sale lists.

### REGULATION RESPECTING OCCUPATIONAL HEALTH HAZARDS

1.—(1) In this regulation and a regulation respecting a regulated substance,

- (a) "administrative controls" mean controlling, limiting or reducing the period of time of exposure to a regulated or a toxic substance or a physical agent;
- (b) "ceiling exposure limit" means the maximum exposure to an airborne concentration of a regulated or a toxic substance or a physical agent that is not to be exceeded for an instant;
- (c) "engineering controls" mean controlling, limiting or reducing the exposure to a regulated or a toxic substance or a physical agent by ventilation, isolation, enclosure and design of the work place, plant and equipment or one or more of such means;
- (d) "physical agent" means heat, humidity, light, noise, laser, microwave energy, ultra-violet or ionizing radiation, exposure to which is limited or proscribed under a regulation, or a limit for exposure thereto is adopted as a criteria or guide under this regulation;
- (e) "regulated substance" means a toxic substance the exposure to which is limited or proscribed under a regulation;
- (f) "short-term exposure limit" means the maximum exposure to an airborne concentration of a regulated or a toxic substance or a physical agent in a period not exceeding fifteen minutes provided that such maximum exposure does not occur more than four times in a day at intervals of not less than sixty minutes and further provided that the time-weighted average exposure limit is not exceeded;
- (g) "time-weighted average exposure limit" means the maximum average exposure in a 40 hour work week to an airborne concentration of a regulated or a toxic substance or a physical agent determined as prescribed by section 2;

(h) "toxic substance" means a biological or chemical substance, a mixture or combination of such substances in respect of which a limit for exposure thereto is adopted as a criteria or guide under this regulation;

(i) "work practices" mean controlling, limiting, or reducing exposure to a regulated or a toxic substance or a physical agent by,

(i) providing,

1. double locker rooms and showers;
2. for the laundering and cleaning of work clothing;
3. separate eating facilities;
4. washing facilities;

(ii) maintaining proper housekeeping procedures,

(iii) training workers in the handling, use and disposal of a regulated or a toxic substance, and

(iv) taking proper measures and procedures to control, limit or reduce such exposure.

(2) In a regulation made under the Act, the term,

- (a) milligrams per cubic metre of air;
- (b) micrograms per cubic metre of air;
- (c) parts per million by volume in air;
- (d) parts per billion by volume in air; and
- (e) fibres per cubic centimetre of air

may be expressed respectively as,

- (a)  $\text{mg/m}^3$ ;
- (b)  $\text{ug/m}^3$ ;
- (c) ppm;
- (d) ppb; and
- (e) fibres/cc.

2.—(1) In determining the time-weighted average concentration of a regulated or toxic substance in the air in a work place and the exposure thereto,

(a) the results of the analysis of individual samples of air taken during work operations

calculated in  $\text{mg/m}^3$ , ppm, ppb and fibres/cc shall be multiplied by the time in hours per day or work shift during which it is estimated that exposure to the concentration of the regulated or toxic substance obtained in the samples has occurred in the work operations;

(b) the sum of the products obtained under clause (a) shall be multiplied by the number of days worked by the worker in a work week; and

(c) the result obtained under clause (b) shall be divided by 40.

(2) Where the length of exposure exceeds or is less than the length of exposure in a normal 8 hour work day and a 40 hour work week, the calculations made pursuant to subsection 1 shall be adjusted so that the result obtained will be representative of an exposure for a normal 8 hour work day and a 40 hour work week.

3. Subject to a regulation made in respect of a regulated substance, the time-weighted average exposure limits, the short-term exposure limits and the ceiling exposure limits for exposures to airborne concentrations of a biological or chemical substance or a physical agent or a mixture or combination of biological or chemical substances, set out in the booklet entitled *Threshold Limit Values for Chemical Substances and Physical Agents in the Workroom Environment with Intended Changes for 1977* published by the American Conference of Governmental Industrial Hygienists are adopted as criteria or guides.

4.—(1) Where exposure to a concentration in air of a regulated or a toxic substance or a physical agent in excess of,

- (a) a ceiling exposure limit;
- (b) a short-term exposure limit; or
- (c) a time-weighted average exposure limit,

occurs as prescribed by a regulation or in a criteria or guide adopted by this regulation, the excess shall be eliminated, controlled, limited or reduced to an exposure below such limit by the adoption, application, installation and institution, in progressive stages of,

- (d) engineering controls;
- (e) work practices; and
- (f) administrative controls.

(2) Where the measures and procedures prescribed by subsection 1,

(a) do not eliminate, control, limit or reduce exposures below the limits prescribed or adopted;

(b) are not immediately practicable; or

(c) cannot be promptly adopted, applied, installed and instituted,

suitable respiratory equipment or other personal protective equipment or devices shall be provided and used for such period or periods as a Director may permit from time to time.

3. where laundering is impracticable, disposed of with proper precautions.

(c) (i) Facilities shall be provided for vacuuming work clothes when leaving the area of exposure and shall be used.

**1.** Noise is prescribed as a regulated physical agent.

**2.** In this regulation,

(a) "steady noise" means a noise that does not fluctuate by more than 2 decibels;

(b) "continuous exposure" means constant duration of exposure to noise during a work shift;

(c) "decibels A weighted or dBA" means a unit of measurement of sound pressure level corrected to the A-weighted scale as defined in the Canadian Standards Association, Standard Z107.1-1973;

(d) "impulsive or impact noise" means a sound with a rise time of not more than 35 milliseconds to peak intensity and a duration of not more than 500 milliseconds to the time when the sound level decays 20 dB below the peak intensity;

(e) "intermittent noise" means a noise whose sound pressure level equals the ambient environmental level two or more times during the period of observation. The period of time during which the level of the noise remains at an essentially constant value different from that of the ambient is on the order of one second or more;

(f) "noise level" or "sound level" means a weighted sound pressure level measured by the use of a sound level meter on slow response;

(g) "peak sound pressure level" means the peak instantaneous pressure expressed in decibels using a reference level of 20 micropascals measured on a sound level meter with a peak hold capability or accessory the specifications of which meet or exceed those described in the International Electrotechnical Commission Publication 179A, 1973;

(h) "rms" means root-mean-square;

- (i) "sound pressure level" means 20 times the logarithm to the base 10 of the ratio of the rms pressure of a sound to the rms of the reference pressure using a reference of 20 micropascals;
- (j) "sound level meter" means a metering device having a characteristic, the specifications of which are equal to or exceed those of a Type 2 meter as described in the Canadian Standards Association Standard Z107.1-1973;

## THE CORPORATION OF THE TOWN OF EXETER

NOTICE IS HEREBY GIVEN that the Corporation of the Town of Exeter intends to apply to the Legislative Assembly of the Province of Ontario for Special Legislation to provide that:

1. An Act respecting the Village of Exeter, Statutes of Ontario, 1899, Chapter 47 is repealed.
2. Village of Exeter By-Law No. 8, 1899, Being a By-Law to provide a fixed general mill rate for farmland in blocks of not less than 20 acres is repealed.

In 1899, the Municipal Council of the Corporation of the Village of Exeter set a fixed rate of three and one-half mills on the general mill rate, together with rates for debenture debt, school and county purposes. The relief was granted to owners of farmland in blocks in excess of twenty (20) acres for such services as electric lighting, fire protection, sidewalks, etc. Assessment and mill rates have changed over the years. Some properties assessed as farmland have residences attached, enjoying

these services that exemption was granted for. Council of the Corporation of the Town of Exeter deem this fixed rate for farmland no longer equitable or fair.

By applying to the Provincial Legislature for the Act and By-Law to be repealed will cause the owners of the said parcels of farmland to be subject to the full general municipal mill rate (including debenture debt), as well as the rates for school and county purposes.

Dated at Exeter, this 25th day of July, 1978.
